

Spring Field Trip

April 25 - 27, 2014

The spring field trip will be to Redbird Wildlife Management Area in the Redbird District of the Daniel Boone National Forest. We will be collecting primarily along Gilbert, Sugar, and Rockhouse Creeks.

Friday, April 25 at 4:00 pm we will meet at the Redbird District Ranger Station (which is on KY66 approximately 1.7 miles south of the intersection with US421/KY80). If you own the DeLorme Kentucky Atlas, this is the location of Peabody. We will proceed to the collecting area to set up light traps and a possible light sheet.

Saturday, April 26 at 8:00 am we will meet again at the Ranger Station and then we will go to the collecting sites.

Sunday, April 27 at 8:00 am we will meet again at the Ranger Station and then we will go to the collecting sites.

Directions to the Redbird Ranger District Office: From the Hal Rogers Parkway (formerly Daniel Boone Parkway), take Big Creek Exit #34. Turn right at the end of the exit ramp onto KY 66. Go 0.7 miles (passing under the parkway) to the intersection with US 421/KY 80. Turn right and go 0.8 miles, and then turn left onto KY 66. Continue on KY 66 for 1.7 miles. The Redbird Ranger District office is on the right.

Lodging: Arrangements have been made with the Best Western in Manchester, KY. The address is 363 Highway 80 and is just south of exit 20 of the Hal Rogers Parkway. The phone number is 606-598-1800 and tell them you are with

the Society of Kentucky Lepidopterists. We have been given a rate of \$60.00 per night (with tax comes to \$64.24). There are primitive camp sites in the area. If you want to camp please contact the Redbird Ranger District Office at 606-598-2192.

Plan on packing lunch for each day as there are no places to purchase food where we will be collecting.

Any questions, please contact Charles Wright at 502-223-4523 or hidenspring@earthlink.net. If anyone wants to go to the area earlier than 4:00 pm on Friday, let me know and I will meet you at the Ranger Station when you think you will be there.
